APPLICATIONS

One Medium. Endless Possibilities.

Cocopeat is a versatile, natural growing medium used in a wide range of agricultural and horticultural applications. It ensures excellent root development, superior water retention, and promotes healthy plant growth.

GREENHOUSE FARMING

Provides optimum moisture retention, better aeration and ideal root environment for high yield and consistent quality.

HYDROPONICS

Low EC and balanced pH make cocopeat an excellent medium for hydroponic systems and soilless cultivation.

NURSERIES

Ideal for seed germination and raising healthy, uniform seedlings with strong root growth.

VERTICAL FARMING

Lightweight, clean and sustainable growing medium perfect for vertical farming and urban agriculture.

OPEN FIELD CULTIVATION

Improves soil structure, enhances water holding capacity and supports healthy plant growth in open field crops.

WHY COCOPEAT?

-  **High Water Holding Capacity**
Retains moisture and reduces watering frequency.
-  **Excellent Aeration**
Improves root respiration and plant health.
-  **Natural & Sustainable**
100% organic, biodegradable and eco-friendly.
-  **pH Balanced**
Maintains ideal pH level for plant growth.
-  **Low EC & Clean**
Washed and buffered to ensure safe and healthy cultivation.

**From Seed to Harvest,
Cocopeat Nurtures Every Step.**
